Petition to Governor Jay Nixon on Clemency for Reginald Clemons

Governor Nixon, we the undersigned believe that the facts surrounding the murders of Julie and Robin Kerry on the Chain of Rocks Bridge in 1991 have yet to be fully uncovered. Police brutality to force a confession, prosecutorial misconduct, ineffective counsel and other factors made this a classic case of reasonable doubt. Reggie Clemons has not received due process yet he sits on Missouri's death row. As governor, you have the authority to slow the process down so that the facts can be thoroughly uncovered and reviewed in this case. We cannot let another innocent person be wrongfully executed.
